KEMPINSKI HOTEL-CONGO

Location : BRAZAVILLE

Structured Cabling System : Supply-Installation -Termination-
for (2000 CAT 6A /400 Fiber) Points

IP TELEPHONY : Supply Installation programing for 500 IP USERS

Network Switches : Programing for HP Network Switches

-Air Containment system

-Enterprise Server Monitoring (EMS)

-Static Switches

CLARTE HOTEL - cote d'ivoire

Location : BRAZAVILLE

Structured Cabling System : Supply-Installation -Termination-
for Structured Cabling System

IP TELEPHONY : Supply -Installation -Termination for IP PABX
System

CCTV Security System : Supply -Installation -Programing for
CCTV Security System

Fire Alarm System : Supply -Installation - Programing for Fire
Alarm System

Hotel Access Control System : Supply -Installation -Programing
for Access Control System

Network Switches : Supply -Installation -Programing for Network
Switches

Bristol Hotel

Location : Lebanon

Structured Cabling System : Supply-Installation -Termination-
-Termination for Structured Cabling System

Project References

Location: Al Najaf-IRAQ

Project Name: 5 Stars Hotel
Telecom & Security Systems

- Structured Calbling : Installation - Termination- Labeling -
Testing for (3500*Cat/600*Fiber Pigtail)

-Networking Ed Points: Installation - Programing For (215*POE
Switches/480*POF Acces Point)

-IP Telephony :Installation - Programing For (1500*IP Phones)

-CCTV Security System:Installation - Programing for (600*IP Cams)

-Fire Alarm Security System:Installation - Programing for (1400*Fire Detector)

-Instrusion Alarm System:Installation - Programing for (80*Detection Alarm)

-Public Address System:Installation - Programing for (700*Speaker)

-Hotel Acces Control System:Installation -Programing for(800*Guest Room Doors)

-Access Control System:Installation - Programing for (100*Access Doors)

-IP TV System : Installation Programing for (800*IPTV System)

-OPC Intergration Software:Integration between all security Systems
(CCTV Security System - Access Control System - Fire Alarm Security System)

-Intrusion Alarm System For more then 2200 integrated device

Project References

Location: Kenya - 14 sites all over Kenya

Project Name: Kenya Pipeline Company

Telecom & Security Systems

-Structured Calbing: Installation - Termination - Labelling - Testing For (2000*Cat6ACable/4000*Fiber pigtail)

-Fluke OTDR Testing for (5000*Single Model Fiber Pigtail)

-CCTV Security System: Installation - Programing for (400*IP Cams)

-IP Telephony: Installation - Programing for (-300IP Phones)

-Industrial Switches: Installation - Programing for (250*Unit)

Project References

Location: Nigeria - Port Harcut

Project Name: Onne Port - Maersk

Telecom & Security Systems

600-*IP Cameras

100-*Face Recognition Reader

22-*ANPR & FACE Cameras

800-*Fire Alarm Devices

200-*Network Switches

-Full Fiber Infrastructure

Project References

Location: Ghana - Kumassi

Project Name: Kumassi Hospital (250 Bed)

Telecom & Security Systems

-Structured Cabling:1700 Cat.6A400-Fiber Port

-Network Switch & Wifi: 1900 Ports

-Nurse Call System:92 Clocks

-Fire Alarm System: 900 Detectors

-Public Address System:200 Speaker

-SMTV System: 280TV

-IP PABX System: 400 USER

-IP CCTV:200 Camera

Project References

Location: Ghana - Kumassi

Project Name: Salaga Hospital (60 Bed)

-Structured Cabling:800 Cat.6A150-Fiber Port

-Network Switch & Wifi: 900 Ports

-Nurse Call System:170 Devices

-Clock System:60 Clocks

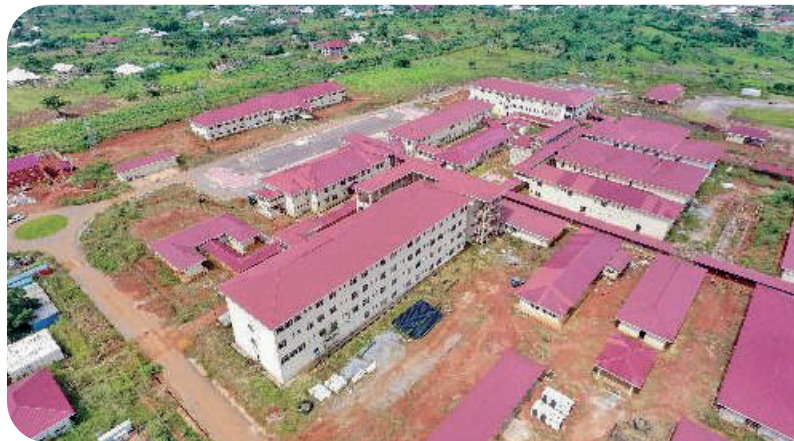

-Fire Alarm System :600 Detectors

-Public Address System:92 Speaker

-SMTV System:96 TV

-IP PABX System: 180 User

-IP CCTV: 112 Cameras

Project References

Location: Lebanon - Beirut

Project Name: CNAM UNIVERSITY

-Structured Cabling: 1,400 Cat.6A400-Fiber Port

-Network Switch & Wifi: 1,590 Ports

-IP PABX System: 120 User

-IP CCTV: 120 Cameras

Project References

Location: Lebanon - Bchamoun

Project Name: BANO FACTORY

Security & Telecom Systems

-Structured Cabling: Installation - Termination - Labelling - Testing for (500*Cat6Cable)

-CCTV Alarm Security System : Installation - Programming For (150*IP Cams)

-Fire Alarm Security System: Installation - Programming for (250*Fire Detector)

Project References

Location: GHANA- ACCRA

Project Name: Oxford Hotel

Telecom & Security Systems

- Structured Calbling : Installation - Termination- Labeling - Testing for (1500*Cat/120*Fiber Pigtail)

-Networking Ed Points: Installation - Programing For (65*POE Switches/150*POF Acces Point)

-IP Telephony : Installation - Programing For (270*IP Phones)

-CCTV Security System:Installation - Programing for (10*IP Cams)

-Fire Alarm Security System : Installation - Programing for (600*Fire Detector)

-Intrusion Alarm System: Installation - Programing for (250*Detection Alarm)

-Hotel Address System: Installation - Programing for (200*Speaker)

-Hotel Acces Control System:Installation -Programing for(800*Guest Room Doors)

-Access Control System : Installation - Programing for (30*Access Doors)

-IP TV System : Installation Programing for (364*IPTV System)

-OPC Intergration Software : Integration betwen all security Systems (CCTV Security System - Access Control System - Fire Alarm Security System)

Project References

Location: Lebanon (Beirut Campuses - Tyre Campus - Tripoli Campus - Kbayet Campus)

Project Name: UNHCR Lebanon

Telecom & Security Systems

- Structured Calbling : Installation - Termination- Labeling -
Testing for (2000*Cat6ACable/200*Fiber Pigtail)

-CCTV Security System:Installation - Programing for (700*IP Cams)

-Fire Alarm Security System : Installation - Programing for (1200*Fire Detector)

-Intrusion Alarm System: Installation - Programing for (240*Detection Alarm)

-Access Control System : Installation - Programing for (300*Access Doors)

-OPC Intergration Software : Integration between all security Systems
(CCTV Security System - Access Control System - Fire Alarm Security System)

-Intrusion Alarm System :For more then 2400 integrated device

-One management and monitoring control for 6 different sites

CASE STUDY

Location: Lebanon Beqaa

Project Name: Serum & Solution Manufacture

Telecom & Security Systems

- **Structured Calbling** : Installation - Termination- Labeling - Testing for (500*Cat/50*Fiber Pigtail)
- **CCTV Security System**: Installation - Programing for (200*IP Cams)
- **Fire Alarm Security System** : Installation - Programing for (300*Fire Detector)
- **Access Control System** : Installation - Programing for (60*Access Doors)
- **Conference Room** : Installation - Programing for conference rooms
- **BIS Integration Software** : Integration between Access Control System & BMS

Project References

Location: Lebanon - Beirut

Project Name: Bir Hassan Project

Telecom & Security Systems

- **Structured Calbling** : Installation - Termination- Labeling - Testing for (3000*Cat6ACable/500*Fiber Pigtail)
- **Fire Alarm Security System** : Installation - Programing for (500*Fire Detector)
- **Intrusion Alarm System**: Installation - Programing for (120*Detection Alarm)
- **Conference Room**: Installation - Programing for Conference Rooms
- **Public Address Security System** : Installation - Programing For (150*Speakers)
- **BIS Integration Software**: Integration between (Fire Alarm System - Intrusion Alarm - Public Address System)

Civil Aviation Rafic Hariri Airpot

Location: Lebanon - Beirut

Project Name: Civil Aviation Rafic Hariri Airport

Telecom & Security Systems

-Structured Calbling : Installation - Termination- Labeling - Testing for (2000*Cat6A Cable/1200*Fiber Pigtail)

-Structured Cabling : Installation - Termination - Labeling - Testing for (1800*Cat6ACable/1000*Fiber Pigtail)

Lebanese University North Campus

Location: Lebanon - Tripoli

Project Name: Lebanese University North Campus

Telecom & Security Systems

-Structured Calbling : Installation - Termination- Labeling - Testing for (2000*Cat/1000*Fiber Pigtail)

Location: Lebanon - Barsa

Project Name: NDU BARSA

Telecom & Security Systems

-Structured Calbling : Installation - Termination- Labeling - Testing for (1200*Cat6A Cable/90*Fiber Pigtail)

-Fire Alarm Security System: Installation - Programing for (480*Fire Detector)

Gold Trust Refinery

Location:Ghana - Accra

Project Name: Gold Trust Refinery

Telecom & Security Systems

-CCTV Security System: Installation - Programing for (45*IP Cams)

-Access Control System : Installation - Programing for (50*Access Doors)

ABC Verdun

Location: Lebanon - Verdun

Project Name: ABC Verdun

Telecom & Security Systems

-Structured Calbling : Installation - Termination- Labeling -
Testing for (3000*Cat6A Cable/2000*Fiber Pigtail)

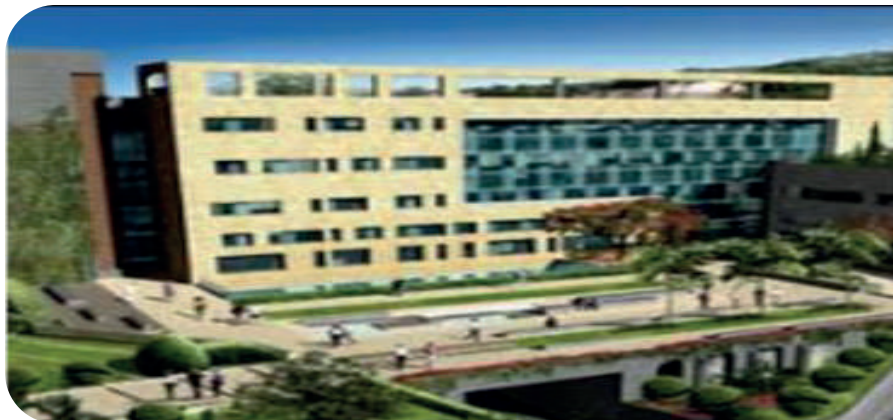

LAU LAB University

Location:Lebanon - Byblos

Project Name: LAU Library University

Telecom & Security Systems

-CCTV Security System: Installation - Programing for
(1300*Cat6ACable/150*Fiber Pigtail)

Lebaya-Shakib Ireslann Public Schools

Location: Lebanon - Beirut - Beqaa Baalback

Project Name: Hadath Baalback - Lebaya - Shakib Ireslan Public Schools

Telecom & Security Systems

-Structured Calbling : Installation - Termination- Labeling -
Testing for (200*Cat6A Cable)

-Fire Alarm Security System: Intallation - Programing
(450*Fire Detectors)

LAU Library University

Location: Lebanon - Byblos

Project Name: LAU Library University

Telecom & Security Systems

-CCTV Security System: Installation - Termination-Labeling
Testing for (2000*Cat6ACable/200*Fiber Pigtail)

MEA Training Center

Location: Lebanon - Beirut

Project Name: MEA Training Center

Telecom & Security Systems

-Structured Calbling : Installation - Termination- Labeling -
Testing for (2500*Cat6A Cable/1500*Fiber Pigtail)

Saint Josephf University

Location:Lebanon - Beirut

Project Name: Saint Josephf University

Telecom & Security Systems

-CCTV Security System: Installation - Termination-Labeling
Testing for (2000*Cat6ACable/1000*Fiber Pigtail)

Gold Trust Refinery

Location: Ghana - Accra

Project Name: Gold Trust Refinery

Telecom & Security Systems

-CCTV Security System: Installation - Programing for (45*IP Cams)

-Axxess Control System :Installation - Programing for (50*Access Doors)

Chamber Of Commerce Zahle

Location:Lebanon - Zahle

Project Name: Chamber Of Commerce

Telecom & Security Systems

-Structured Cabling: Installation - Termination - Labeling - Testing for (500*Cat6Cable)

-Fire Alarm Security System :Installation - Programing for (150*Fire Detectors)

-Public Address Security System: Installation - Programing for (45*Spealers)

-CCTV Security System: Installation - Programing for (35*P Cams)

-IP Telephony:Installation - Programing for (100*IP Phones)
